Kim,

Kits in stock are ok. It's a wise decision to scrap the D4420-041 if any in stock.
As for DSI 9599-011, it is an optional kit so no need to add to any existing DXXX-794-XXX kits in stock.

MARC,

Can you tell me if they were supposed to put the DSI into kits in stock if they had any? It looks like they scrapped the D4420-041 parts but no mention of updating kits in stock.

Thanks,

Kim Johnston
